

BENJAMIN BLACK

Postdoctoral researcher with a professional background in conservation, specialising in socio-environmental systems modelling to support evidence-based policy and planning. Passionate about advancing open science, communicating research beyond academia, and mentoring others in modelling, programmatic data analysis, and visualisation. Experienced in managing small and large teams, especially in cross-cultural and interdisciplinary settings, with a strong commitment to collaborative and inclusive research.

EDUCATION

- Doctor of Civil Engineering**
ETH Zürich, chair of Planning of Landscape Urban Systems (PLUS)
Zürich, Switzerland
Thesis: *Identifying effective area-based conservation strategies under uncertainties*
Awards: *Nominated for the ETH medal for outstanding doctoral theses*
- MSc in Environmental Sciences, Policy and Management (MESPOM)**
Central European University, University of Manchester, Lund University, University of the Aegean
Hungary, Greece, UK
Thesis: *Assessing the ecological effectiveness of protected areas in Cambodia: a quasi-experimental counterfactual estimation of avoided deforestation*
Awards: *Outstanding academic achievement (highest GPA in cohort: 4.00/4.00)*
- BSc with 1st Class Honours in Biological Sciences**
Edinburgh Napier University
Edinburgh, Scotland
Thesis: *Simulating the future potential of degraded Mangrove plots using field data from Kenya*
Awards: *University medal (highest average mark on degree route); Lawrence Ho student prize; Dennis Aw award.*

PROFESSIONAL EXPERIENCE

- Freelance Research Consultant**
Prognos AG
Zürich, Switzerland
Performed Land Use and Land Cover change modelling of Shared Socioeconomic Pathways for Switzerland as part of project funded by the Swiss National Centre for Climate Services
- Biodiversity and SMART Intern**
The Wildlife Conservation Society (WCS)
Phnom Penh, Cambodia
Developed a programmatic routine to expedite the collection of external data from the IUCN, EDGE ranking and CITES to produce protected area species inventories in line with Darwin Core standards. Assisted in the training of new community biodiversity rangers in the process of SMART data collection in the field.
- Student Affairs Manager**
The School for Field Studies Center for Conservation and Development Studies in the Lower Mekong
Siem Reap, Cambodia
Coordinated safety and risk management as well as logistics for all centre activities including multi day field trips to remote locations. Served as the medical point person, facilitating first aid training for staff, while also supporting student well-being and cultural adaptation in a pastoral role.

TECHNICAL SKILLS

Advanced: R (Shiny, Quarto), Dinamica EGO, Netica and MS Office
Intermediate: ArcGIS, QGIS, CSS and Git
Basic: Python, HTML, Docker, JavaScript, Bash and Slurm

LANGUAGES

English: Native
German: B2

- April. 2015
|
June. 2017

● **Project Manager & Volunteer Co-ordinator**
Elephant Livelihood Initiatives and Environment (E.L.I.E)
📍 Mondulkiri, Cambodia

Managed a diverse team (Bunong Indigenous minority, and Khmer) of 48 staff. Oversaw the operation of an ecotourism project receiving 4000+ visitors a year. Facilitated ongoing capacity building of staff and development of the volunteer program. Compiled budgets, managed cash flow, and created detailed financial and organizational reports.
- Oct. 2015
|
Dec. 2015

● **Independent Consultant Srae Y Community ecotourism project**
World Wide Fund for Nature (WWF)
📍 Mondulkiri, Cambodia

Undertook site visits to assess the status of the project and prepared a report, detailing strategies to make the project operational and sustainable. Planned and delivered a series of training sessions to project staff and stakeholders from other communities engaged in ecotourism.
- May 2013
|
Apr. 2015

● **Volunteer Development Officer & Conservation Support Assistant**
The Conservation Volunteers (TCV)
📍 Central Scotland

Planned, developed and delivered the Ochils Landscape Partnerships volunteering program and two TCV community health projects. Engaged with, and ensured the safety and wellbeing of a diverse cross section of volunteers, many with physical or mental disabilities as well as young adults/children.

TEACHING, TRAINING & WORKSHOP DELIVERY

- Sep. 2024

● **Reproducible Research with R and Quarto: Workflows for data, projects and publications**
Three hour workshop as part of Landscape 2024 conference
📍 Berlin, Germany
- Feb. 2021
|
Jul. 2024

● **Participatory Environmental Modelling: MSc course at ETH Zürich**
Designed and taught an MSc-level course integrating students and practitioners to develop simulation models for real-world environmental decision-making.
📍 Zürich, Switzerland

 Website

GRANTS & FUNDING

- Dec. 2024

● **Future development of biodiversity and ecosystem services as a basis for the revision of the sectoral plan for biodiversity**
Canton of Bern Department of Agriculture and Nature
📍 Bern, Switzerland

Project in collaboration with the Wyss Academy for Nature to generate policy-relevant evidence supporting the canton's revision of the sectoral biodiversity plan.
- Jun. 2023

● **Nature-positive Scenarios for Environmental Transitions Peru (NASCENT-PERU)**
Swiss Re Foundation
📍 Zürich, Switzerland

Funded project under the SwissRE Biodiversity and Ecosystem Services Scenarios Modelling Initiative

 Website

PUBLICATIONS

- In Review

● **The PAVE pathway: how to talk about models with people who did(n't) build them**
Bell, A., Troost, C., Filatova, T., Vincenot, C., Qin, C., Fiedler, S., Lemmen, C., Lynch, I., Pierce, M., Edmonds, B., McIntire, E., Wang, H., Koralewski, T., Grant, W., Wang, M., Black, B., Grimm, V.
Bioscience
